PERSONAL STATEMENT

Detail oriented and highly motivated Computer Science undergraduate, with a strong interest in front-end development and web technologies. I approach problem-solving with analytical thinking and a practical mindset, and I'm committed to continuously improving my technical skills. Focused on building real-world projects, gaining hands-on experience, and developing a strong foundation in software development.

EXPERIENCE

WordPress Front-End Developer (Independent And Self Projects)

March 2025 - Present

- Designed and Developed fully responsive WordPress websites
- Structured layouts with clear content hierarchy and user flow
- Customized themes and implemented plugin-based functionality
- Applied foundational SEO setup and basic performance improvements
- Refined visual presentation through custom CSS/JS adjustments

Front-End Development (FreeCodeCamp)

April 2024 - September 2024

- Built responsive web pages using HTML5 and CSS3
- Strengthened foundational JavaScript Knowledge
- Practiced layout structuring and cross-device testing
- Improved debugging and frontend problem solving skills

INDEPENDENT WEB PROJECTS

InteriorCo (Wordpress | Elementor | Custom CSS)

Designed a modern landing page for an interior design company, focused on trust, elegance, and strong brand presence.

Film Studio (Wordpress | Elementor)

Created a responsive landing page for a videography studio and creative workspace, highlighting services and visual appeal.

Chimdi's Portfolio (Wordpress | Elementor)

Developed a personal landing page for a fashion designer and social media manager to showcase recent projects and services.
